

Q-DAS HELP-HOWTO

This document shows the procedure for integrating and using the new Q-DAS help. (paligo) The help works as of software version 13.0.5.2

PROCEDURE

1. [Download](#) the latest help ZIP file from the Q-DAS homepage.
2. Copy the downloaded ZIP folder into the help folder Help in the used Q-DAS share directory.
INSTALL_DIRECTORY\Q-DAS\Share\Help
3. Unzip the downloaded ZIP file.
4. View after unzip / the marked folders have been added.

CALL UP HELP FUNCTION

The help can be opened in the application directly with F1 or via the “contents” or “search” button. (*Extras/Help*). The help will be opened in the set default browser.

TROUBLESHOOTING

If you receive this message when trying to open the help, the following option must also be set. (*Configuration/Paths*)
